

Single Use License Authorization

1. Save the license file to your computer.
2. From the ArcGIS program menu, open the ArcGIS Administrator.
3. Click on the Desktop Folder.
4. Click on the appropriate radio button for your product - Advanced (ArcInfo), Standard (ArcEditor) or Basic (ArcView) (Single Use).
5. Click Authorize Now.
6. Select the third option - "I have received an authorization file from Esri and am now ready to finish the authorization process."
7. Browse to the location where you stored the provisioning file. Click on the file. It should appear in the box.
8. Click Next
9. Select the first option - "Authorize with Esri now using the Internet."
10. Click Next

This information is pre-populated from the provisioning file. The Comment field identifies your name and agency. There is no need to change this information.
11. Click Next
12. Select responses to the three questions from the dropdown lists.
13. Click Next

You should see license information for the product you selected.
14. Click Next

The MD-Esri ELA Account at the Esri Customer Care Portal is now being contacted and your product(s) are being registered. When the process is complete, your software is authorized and ready for use.
15. Click Finish
